BRAYDON VIRAGH

Full Stack Developer

braydonviragh.com | github.com/braydonviragh | bpviragh@gmail.com | (705)-818-1632

SKILLS

- **Frontend Development:** Vue.js (Vue 3, Composition API, Vuex/Pinia), React.js, Redux, TailwindCSS, Quasar Framework
- **UX & Accessibility:** Responsive design, mobile-first development, WCAG standards, UX/UI design principles
- **Backend & APIs:** PHP, Laravel, MySQL, Node.js, REST APIs, Axios
- **Tools & Technologies:** Git, Docker, CI/CD Pipelines, JIRA, Figma, Storybook, Chromatic, Linux/server administration
- **Other Strengths:** Debugging skills, solution-oriented mindset, cross-functional collaboration

---

PROFESSIONAL EXPERIENCE

Frontend Developer

Carelancer LP – *December 2023 – Present*

- Designed and maintained **reusable UI components** using **Vue.js 3 Composition API**, Quasar Framework, and **Pinia state management**, improving component scalability across multiple applications.
- Advocated for and implemented **UX best practices**, delivering consistent, accessible, and responsive designs that enhanced user experience and aligned with WCAG guidelines.
- Integrated third-party APIs (e.g., Stripe) and maintained **seamless frontend-backend communication** through REST APIs, boosting app functionality and performance.
- Collaborated with designers, developers, and product teams to meet evolving project needs, ensuring alignment with **design system standards**.
- Mentored and onboarded developers, fostering team growth and knowledge-sharing through code reviews and technical interviews.

Lead Full Stack Engineer

Modzee Software (Creative Guild) – *September 2022 – December 2023*

- Led the development of a **scalable design system** for a SaaS intranet platform, ensuring consistent, reusable UI components across modular features (marketplace, calendar, notes).
- Partnered with product teams and designers to customize solutions for high-profile clients (e.g., Osmows Canada), adhering to **UX principles** and client-specific branding.
- Maintained platform reliability by optimizing **frontend performance** and backend services, achieving seamless scalability.
- Integrated APIs (e.g., Giftbit, ChatGPT, BigCommerce), enhancing client workflows and system extensibility.
- Championed **component reusability** and accessibility through best practices in responsive design and cross-functional collaboration.

Full Stack Engineer
Creative Guild – *June 2021 – September 2022*

- Developed a **live-streaming application** (whirlpoolconnect.ca) supporting **500+ concurrent users**, ensuring smooth performance and usability across devices.
- Created and maintained **custom UI components** using **Vue.js + Vuex** and integrated backend functionality via Laravel and MySQL.
- Authored comprehensive **developer documentation** and conducted code reviews to ensure code quality and adherence to best practices.
- Delivered accessible, mobile-friendly interfaces that streamlined user interaction and enhanced training session efficiency for a B2B learning portal.

Freelance Web Developer
braydonviragh.com – *June 2019 – Present*

- Built and deployed responsive, component-based websites for clients using **React.js, Vue.js, and TailwindCSS**.
- Ensured adherence to **WCAG accessibility standards** and responsive design principles, delivering inclusive user experiences.
- Debugged and optimized codebases, improving loading times and overall application performance.

EDUCATION

Humber College – Toronto, Ontario
Postgraduate Diploma in Computer Studies – Web Development

- **Dean's List**
- Relevant Coursework: HTML, CSS, JavaScript, Vue.js, React, PHP, MySQL, Product Management

Laurentian University - Orillia, Ontario
Bachelor of Criminology
